

ACTIVITY REPORT 2022

Jos SALES, president and Louis PHILIPPE, vice-president of STUDY-HELP travelled to Romania from 23 to 30 June 2023 at their own expense with three sponsors to ensure the good follow-up of the sponsored students and their supervision and assistance on place. They went to see the Day Center in Bucharest (which Study-Help finances the catering), went to Brasov and visited St Iosif's Home in Odorheiu. There they met the Sisters in charge of the Day Center as well as the Sisters of St Iosif's Home, a delegation of the Round Table from Brasov, delegations of sponsored students (former and current) and Mihaela Tiron, pedagogical assistant in regular contact with the sponsored students.

Jos SALES travelled again at his own expense to Romania with two sponsors from 1 to 5 December 2022 for the same purpose.

A one-year collaboration contract has been concluded with Mihaela Tiron, with the aim of providing on-the-spot assistance to the students, to monitor their studies and to report back to Study-Help with regular reports. The cost of this contract is covered by donations to Study-Help, particularly by a donation from the Luxembourg Round Table.

A candidature of Study-Help as beneficiary of the DUCK RACE 2023 was submitted, but unfortunately it was not kept back.

A new action "Transport of *second-hand* school chairs and tables from Luxembourg to Romania" was launched.

A charity evening "Study-help Action Horsesteak by Emmi and Marc (former Fengeger Stuff)" was organised on the initiative of C. Maack and C. Kirsch in Clemency on 23.09.2022. The profits of € 2.500 was donated to Study-Help.

Former sponsored students informed Study-Help :

- about an action "Help to the children of Ukraine" which they successfully carried out,
- of their project to create an association " STUDY-HELP ALUMNI " gathering former Study-Help sponsored students and whose mission will consist in assisting each other as well as in assisting and orienting the new generations of students coming from the Children House St Iosif. This ALUMNI project is actively supported by Study-Help.

Three meetings of the Study-Help committee took place in 2022 (on 11.05.2022, 23.08.2022 and 30.11.2022).

In 2022, forty-four (44) students were sponsored through STUDY-HELP, of which eleven (11) were new students and thirteen (13) had started with a Master degree. One student successfully completed her medical studies and is currently specialising in surgery as a general surgery resident at the RO-Targa Mures Clinic. Thanks to Study-Help's support, she was already able to do internships as a physician's assistant in 2019, 2020 and 2021 at CHEM in Esch/Alzette.
